PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in web development, Java, C, databases, Firebase, APIs, and AI-powered application development. Developed academic and personal projects including an AI-powered student study planner, web applications, and a personal portfolio. Seeking a technical internship to apply programming and problem-solving skills in a real-world development environment.

TECHNICAL SKILLS

Programming: Java, C, JavaScript

Web Technologies: HTML5, CSS3, JavaScript

Database & Backend: Firebase, Database Management Systems

APIs & AI: Grok API, AI-powered application integration

Core Concepts: Object-Oriented Programming, Computer Networking, DBMS

Tools: Git, GitHub, VS Code

Networking: TCP/IP, Network Topology, Cisco Packet Tracer

PROJECTS

Eduskill – AI-Powered Student Study Planner | HTML, CSS, JavaScript, Firebase, Grok API

- Developed an AI-powered web application to help students organize and improve their study activities.
- Implemented AI-based topic explanations, personalized study planning, timetable generation, and learning-resource recommendations.
- Integrated AI capabilities through the Grok API and used Firebase for application data and backend-related functionality.

Personal Portfolio Website | HTML, CSS, JavaScript, GitHub Pages

- Designed and developed a personal portfolio website to showcase technical skills, projects, and academic work.
- Implemented responsive web pages and project sections and deployed the portfolio using GitHub Pages.

Restaurant Web Application | HTML, CSS, JavaScript, GitHub

- Developed a restaurant-focused web application as a practical frontend development project.
- Implemented website interface and interactive functionality using frontend technologies and managed the project with Git and GitHub.

Smart College Network | Cisco Packet Tracer, Computer Networking

- Designed a simulated college network topology using Cisco Packet Tracer.
- Practiced network topology design and fundamental networking concepts through a structured networking project.

EDUCATION

Diploma in Computer Engineering — DR. Y.C. James Yen Government Polytechnic, Kuppam | 2024–2027 | 77.00%

SSC — Vani E/M High School, Rayadurg | 2023–2024 | 93.6%

ACHIEVEMENTS

- Won a gold medal with a participation certificate in shuttle at school level.
- Won 1st prize with a participation certificate in Ball Badminton during Diploma 4th Semester in 2025.

LANGUAGES

English, Telugu, Hindi, Kannada
